*& AS : ALV report which displays the contents of the table T006
*& (as a docking container in the bottom) along with the
*& editable ALV which contains the ALV fieldcatalogue table structure.
*& With the available toolbar options of the editable ALV in the output,
*& user can change the fieldcatalogue as per his requirement.
*& When the user clicks 'SUBMIT',the display of the ALV with table T006
*& gets modified and customised accordingly to the user's requirement.

For the display we don't consider the field MANDT, its just meant for the purpose of display in the editable ALV grid.

Now we change the fieldcatalogue in the editable ALV by deleting some fields of the table 'T006' and changing the column position as shown below.
